

CS'11 - Presentation feedback form

Morgan & Claypool Prize

Morgan & Claypool Publishers' will be giving the ten best Science Fiction Prototype (SFP) stories, as judged by the workshop attendees, a signed copy of Brian David Johnson's book "*Science Fiction prototyping: A Framework for Design*". We need your help in identifying the 10 best presentations. Thus, please rate the presentations using a scale from 1 (the lowest) to 10 (the highest). When making your judgment, you are free to make your own judgments but, in case you are struggling for criteria, then some ideas are:

1. How engaging was the scenario (did it grab your attention and entertain or inspire you)
2. How well linked was the scenario and science
3. How original or significant was the work
4. Quality of presentation (clarity, motivation etc)
5. Overall impression

Presentation	Score (1-10) 10=best
<i>Introduction to CS'11 & SF Prototyping</i> David Johnson	NOT Eligible (organizer)
<i>Schrödinger's Notebook</i> Clarissa Ai Ling Lee	
<i>Interaction Space,</i> Gary Graham
